Thank you Casey. I've also confirmed that Clyde Rhodes (Chief, Hazardous Waste Div.), Jamie Ewing (Attorney Specialist) and Dianna Kilburn (Geology Supervisor/CERCLA Groundwater, Hazardous Waste Div.) of ADEQ will attend via teleconference.

Jean Mescher of McKesson probably would like to prevent the meeting from taking place, if the past is any indicator. I hope she will not be able to do that, considering the cost to everyone involved. I assume it will not be a problem since EPA will have legal counsel in attendance, whereas in Arkansas no one was expecting lawyers to be involved, and EPA was going to have to bow out because it was not prepared at the last moment to send its own counsel.

I for my part do not feel the need to bring legal counsel since I have been treated so fairly and openly by you, Carlos Sanchez and Don Williams. I feel a high level of trust with you three. I also feel I am on solid ground legally.

Arkwood's redevelopment is the right thing for the land, for the owner and especially for the people of that area of the country, who sorely need the jobs that could be generated by correctly returning Arkwood to productive use. I believe justice and good public policy will prevail under the guidance of US EPA.

Curt,

I'll ask the EPA site attorney for Arkwood about your request to record the meeting. She is out of the office this week but will return next week.

I've checked with both Carlos Sanchez and Don Williams - both understood that the meeting on Nov 9 is at your request and neither of them has spoken to McKesson or intends to speak to McKesson about the meeting.

I spoke with Tammie Hynum at ADEQ to invite ADEQ's participation via video conference. Tammie stated that ADEQ would participate. However, if you have specific ADEQ staff/management you'd like to attend the meeting then I encourage you to contact them directly to request their participation.

I've reviewed your proposed draft agenda and have forwarded it to Don Williams and Carlos Sanchez. EPA will finalize the agenda as we get closer to Nov. 9.

Thank you,
Casey

Subject: Upcoming Arkwood meeting

Casey,

Will it be possible to record the upcoming meeting?

Can you confirm that the meeting will take place without any McKesson participation? I don't want to be blindsided at the last moment by Jean Mescher or her attorney, as I was in Arkansas last April.

The ADEQ staff whom I feel are important are listed in the draft. I particularly hope that both Director Marks and Managing Attorney Harrelson will make time to attend.

Thank you.
Curt
